

(a) Two-dimensional peaking of the campaign

(b) Three-dimensional peaking, 150 000 particles

- Campaign 9, C9-0 to C9-59
- Continuation, stage 1, C9-60 to C9-77
- Continuation, stage 2, C9-78 to C9-95
- Open marker: infeasible in its own campaign or stage
- 1. Campaign values
- 2. Three-dimensional peaking
- 3. Axially resolved depletion
- 4. Both corrections
- 5. Continuation, both corrections
